

Assisted Step Up Station

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Specifications

Model Number: PAS005

Age Range: 13 years +

Unit Size: 2' 2" x 1' 3"

Product Description

The Assisted Step Up Station provides users the opportunity to improve their muscular endurance, as well as their core and lower body strength. Designed especially for older users as well as those with disabilities, the Assisted Step Up Station enables a wide array of exercise options, including step ups as well as more muscle-centric exercises such as squats and lunges. Since it's constructed from durable steel, the Assisted Step Up Station will remain a staple of your outdoor fitness area. Whether users of your outdoor fitness circuit are looking for aerobic exercise or improved muscle strength, the Assisted Step Up Station is an excellent option for a wide array of users.
